PROFILE

Senior Frontend Engineer with 15+ years in software engineering, specializing in the React ecosystem (React, Next.js, TypeScript) and backed by hands-on backend experience in Java Spring Boot and MySQL. Led frontend development of a large-scale enterprise ERP and headed a government software division, combining solution architecture with team leadership, mentoring and code-quality standards. Creator of an open-source i18n tool for multilingual React applications. **Based in Germany on a Chancenkarte, available immediately and eligible to switch to an EU Blue Card in-country upon hire.**

CORE SKILLS

Frontend: React, Next.js 14, TypeScript, JavaScript, HTML5, CSS3, responsive and accessible UI

State & Data: Redux Toolkit, Zustand, Dexie.js, REST APIs, Microsoft Graph API

Internationalization (i18n): i18next, multilingual React applications, AI-assisted translation workflows

UI & Styling: Tailwind CSS, Ant Design, shadcn/ui, Framer Motion, CSS preprocessors

Auth & Security: MSAL (@azure/msal-react), Microsoft Entra ID, role-based access control (RBAC), OWASP, client-side security

Backend: Java Spring Boot, MySQL

Testing & Quality: Cypress, linters, code reviews, code auditing

DevOps & Tooling: Git, GitHub Actions, Jenkins, Gitee, Docker, pnpm, CI/CD, WebStorm, Cursor

AI Tooling: Model Context Protocol (MCP), LM Studio, AI-assisted development

Leadership: Team leadership, mentoring, project planning, negotiation, decision-making

PROFESSIONAL EXPERIENCE

Freelance Frontend Engineer

09/2025 – present

Self-employed · Syria (remote)

- Built and published [@tuhama/translation-manager](#), an open-source npm package providing an i18n management UI with AI-assisted translation and code-context extraction to speed up localization in multilingual React projects.
- Architected a high-performance, accessible [portfolio site](#) in Next.js 14 with Redux Toolkit, Tailwind CSS and Framer Motion, with automated CI/CD deployments via GitHub Actions.
- [GLC](#) (law office management system): implemented enterprise-grade SharePoint document management in React using @azure/msal-react and the Microsoft Graph API, with seamless Microsoft Entra ID authentication and file processing.

Senior Frontend Developer

02/2021 – 08/2025

BPro ERP · Remote · held alongside government role

- Led frontend development of a large-scale enterprise ERP system for 4+ years, running code reviews and mentoring junior engineers to uphold high standards for UI architecture, performance and maintainability.
- Architected modular UI components for complex enterprise domains, including Sales, Inventory and Resource Management, plus a granular role-based access control (RBAC) permission system.
- Integrated frontend workflows into automated Jenkins CI/CD pipelines with Gitee version control, working with backend and DevOps teams to enable smooth automated branch deployments.

Head of Analysis and Software Division, IT Department

Directorate of Finance (government agency) · Homs, Syria

- **Division leadership:** directed the software division, overseeing software analysis, design and implementation strategy.
- **Full-stack development:** designed and built complex internal systems with Java Spring Boot, MySQL and React.
- **Key projects:** Warehouse Management System and Personnel Portal.

07/2008 – 05/2025

Java Applets Programmer

[MIDITEC](#) · Damascus, Syria

- Trained and worked as a Java programmer on MTZ Web, MIDITEC’s ERP product, directly after graduation.

08/2007 – 05/2008

EDUCATION

Master of Software Engineering

Al Baath University, Syria

Thesis: Client-side web application security

2014 – 2020

Bachelor of Software Engineering

Al Baath University, Syria

09/2002 – 07/2007

CERTIFICATES

IBM DevOps and Software Engineering (Coursera specialization) · [View credential](#)

Covered CI/CD, DevOps, cloud deployment, OWASP application security, Bash scripting and the software development life cycle.

Model Context Protocol (MCP) Mastery (Coursera) · [View credential](#)

Advanced Styling with Responsive Design (Coursera) · [View credential](#)
